BID BADGE HOLDER RESPONSIBILITIES

The Buyer is responsible for showing their bidder badge sticker to the auctioneer; not just hand signs.

We ask that the Badge Holder not give their bid number to anyone else but if they do, they are responsible for any mistakes made by such agents or people. It may result in being refused entry to the auction.

It is also the responsibility of the buyer to reconcile all their purchases against the Bid Sheet for that auction by 12pm MST the next day.

In the rare event that a buyer has a vehicle on such a report but believes they did not bid on the vehicle again, they should advise the auction by 12pm MST the following day.
